Our most recent movie hire

Posted: September 1 by Vanessa.

An interesting aspect of our business is the sale and hire of props. Last month we supplied some furniture and lots of quirky decorating items for the movie [Nim's Island](#), which stars Jodie Foster.

Our items have appeared in many movies, television shows, advertisements and photo shoots. Our shop even featured on the cover of Rolling Stone with Powderfinger back when the local lads were "the next big thing".

We would like to say a big "thank-you" to the interesting network of talented people who have used us over the years. We always welcome any enquiries about this aspect of our business.
